

Nature
**HEALS
HERSELF.**

LIVING NATURE[®]

100% Natural. Uniquely New Zealand.

Nature Heals Herself

The natural world is constantly moving towards balance. Green quickly returns to fire-devastated forests, natural filtration purifies water and dammed streams find another way.

Your skin is no different. Its power of rejuvenation means it renews itself every month.

But it can't do it alone.

Unique to New Zealand, Active Manuka Honey is one of nature's miracle healers, which is why you'll find it in so many of Living Nature's products, including our Nourishing Night Cream, Rescue Gel and Lip Balm.

Antimicrobial and antioxidant Active Manuka Honey is so powerful it's used in hospitals to aid in healing. These same properties make it perfect to enhance your skin's healing and renewal.
